Cybersecurity partnership with Harbor Labs

Stony Brook, April 1, 2024 — In ZBeats' commitment to maintaining the highest levels of security in its clinical systems, the company is pleased to be engaged with our medical cybersecurity partner Harbor Labs, whose engineering expertise in medical cybersecurity is reflected in the ZBPro product and supporting subsystems. Harbor Labs looks forward to continuing this engagement to provide lifecycle cybersecurity assurance in the postmarket and beyond.

About ZBeats INC

ZBeats INC is a medical device company focusing on providing cardiac technology and solutions to cover full ambulatory cardiac monitoring devices. The company is committed to increasing operational efficiency and the quality of care to our service providers.

About Harbor Labs

HarborLabs is passionate about applying clinical cyber expertise and proven approaches to securing technology, supporting the teams behind it, and protecting the public that uses it. In the premarket and postmarket, HarborLabs' experience with practical cyber science and medical device regulations makes them the perfect partner to help safeguard your investment and your consumers.
